Yellow- saffron, paprika, turmeric, onion skins, red clover, marigold blossoms, dead daffodil heads, celery leaves.
Green- artichokes, spinach, black-eyed susans, nettle, plantain roots.

C. Sun Dyeing:

Use Seta-Colour Transparent Sun dyes/Paints on natural fabrics.

1. Dilute the colour with 50% water. (More water will lighten the colour)
2. Moisten the fabric with a sponge brush or spray bottle.
3. Paint the colour/colours onto the stretched fabric using sponge brushes, sponges or large paint-brushes, applying evenly and quickly.
4. Place the objects (paperclips, coins, leaves, ferns, rubber bands, pens, cutlery, scissors, buttons, dried pasta, cereals, rice, feathers, pressed flowers, seashells, coastersyour won stencils etc) onto the wet painted fabric, pressing the objects down firmly.
5. Place directly in the sun and leave to dry.
6. Also try crunching fabric into a small ball and tie, or use rubber bands or salt as a resist.

(Other sources of drying-heat lamps, sun-lamps, or in front of a large window)

D. Dylon Dyes:

(For Cotton, Linen, Silk, Wool, Viscose rayon, untreated Cotton/Polyesters)

1. Weigh the fabric (1 tin per 250gms dry), then wash and rinse.
2. Open tin and dissolve the dye powder in 0.5 litreboiling water, stirring until completely dissolved.
3. Use a stainless steel pot/pan and pour enough water in to cover fabric.
4. Pour the dye solution into the pot, with 1 heaped tablespoon salt for each tin of dye.
5. Place fabric into the dye bath/pot, and heat , then simmer for 20 minutes. Make sure fabric is submerged and move it around .
6. Rinse in cold water until water runs clear. Allow to dry.

(These dyes can also be done in washing machines- read instructions carefully !)
